Int. J. Pres. Ves. & Piping **29** (1987) 429–430

CONTENTS OF VOLUME 29

Number 1

Stress Concentration and Flexibility Factor of Nozzles in Ellipsoidal Pressure Vessel Heads Subject to External Moment 1
Y. J. CHAO and S. J. YEH (USA)

A Study of Flexibility Factors of Integrally Reinforced Shell to Shell Intersections 23
AKHTAR S. KHAN (USA)

The Prediction of Air Leakage Rates Through Cracks in Pressurized Reinforced Concrete Containment Vessels 33
J. TINKLER, R. DEL FRATE and S. RIZKALLA (Canada)

Large Deformation Analysis of Plate-end Pressure Vessels 47
MD. WAHHAJ UDDIN (Bangladesh)

Elastic–Plastic Cylindrical Shell under Axisymmetric Loading—Analytical Solution 67
H. HÜBEL (Federal Republic of Germany)

Number 2

A Study of Stress Intensification Factors of Integrally Reinforced Shell to Shell Intersections. 83
AKHTAR S. KHAN (USA)

Fatigue Crack Growth Behaviour of Two Casts of A533B Steel. 95
J. H. BULLOCH (South Africa)

Fracture Analysis of Surface Cracks in Cylindrical Pressure Vessels Applying the Two Parameter Fracture Criterion (TPFC) 113
H. P. KELLER, G. JUNKER and W. MERKER
(Federal Republic of Germany)

The Instability of Radial Growth of a Part-through and Part-circumference Circumferential Crack in a Stainless Steel Pipe Subject to Bending Deformation. Part I 155
E. SMITH (Great Britain)

Announcement 165

Int. J. Pres. Ves. & Piping (**29**) (1987)—© Elsevier Applied Science Publishers Ltd, England, 1987. Printed in Great Britain

Number 3

The Assessment of Elastic Follow-up in High Temperature Piping Systems—Overall Survey and Theoretical Aspects 167
J. T. BOYLE (Great Britain) and K. NAKAMURA (Japan)

Thermal Stresses in Helical Tubes 195
D. GAMBY and G. HOELLINGER (France)

The Instability of Radial Growth of a Part-through and Part-circumference Circumferential Crack in a Stainless Steel Pipe Subject to Bending Deformation. Part II—The Effect of a Superimposed Axial Compressive Load . . . 217
E. SMITH (Great Britain)

The Second Order Asymptotic Solutions of the Edge Problems of Thin Uniform Shells of Revolution 237
CHEN GUODONG (People's Republic of China)

Announcements 245

Number 4

The Assessment of Elastic Follow-up in High-temperature Piping Systems—Some Example Problems 249
K. NAKAMURA (Japan) and J. T. BOYLE (Great Britain)

Investigation of Failed Tubes from 'B' Steam Generator of the R. E. Ginna Nuclear Power Plant 275
C. J. CZAJKOWSKI (USA)

Studies on Crack Opening Displacements 291
Y. P. SRIVASTAVA and S. B. L. GARG (India)

On the Estimation of Stress Concentration and Flexibility at Nozzles in Ellipsoidal Vessel Heads 319
YUH J. CHAO (USA)

Announcement 331

Number 5

Study on the Influence of Magnitude and Instant of Overload on Fatigue . . 335
ABDULLA A. BAHASHWAN (People's Democratic Republic of Yemen) and S. B. L. GARG (India)

Review of Fracture Toughness Requirements and Data Relevant to LWR Reactor Pressure Vessels 343
D. P. G. LIDBURY and E. MORLAND (Great Britain)
